ROAD & INDUSTRIAL BITUMEN

SIBA, Società Italiana Bitumi e Affini (the Italian Company for Bitumen and similar products) was founded by Renato Giuffrida, an engineer with a far-reaching entrepreneurial vision, in 1946. The company has grown greatly over 70 years, relying on its constantly improving know-how and production technology, being very attentive to environmental protection. Quality, environment, safety and customer satisfaction are the keywords that daily work at SIBA is based on.

# PAINT MASTIC WATER-BASED PAINT

# BITUMEN

## For road & industrial use

### **DISTILLED BITUMEN - SIBIT® Series**

For laying road pavement

### **OXIDISED BITUMEN - SIBOX® Series**

-building construction: waterproofing products for insulation panel fixing, production of insulation systems, mastics and sealants.

-industry: protective coating for metal and cement pipes, production of waterproof insulation panels, sound-absorbing panels, special sound insulators.

Protective coatings for tanks and containers.

-road: for laying asphalt surfacing, mastic asphalt paving, special paving.

### **POLYMER MODIFIED BITUMEN - FLEXIROAD® Series**

For laying age- and wear-resistant drainage anti-slip pavement, with sound insulating properties and resistance to thermal and dimensional stress.

# WATERPROOFING

## **PRIMERS - SIBAPRIMERS® Series**

Solvent-based bitumen paint, suitable for the saturation of cement laying surface porosity and as a reliable primer for anchoring bitumen coating (membranes, etc.).

## **PAINT - BITOX® Series**

Solvent-based bitumen paint, used for protecting any kind of metal frames and waterproofing cement and cement fibre structures as well as pipes.

## **MULTIFLEX 20 MD-F®**

Elastomeric bituminous waterproofing, featuring easy and fast application for waterproofing and protection of buildings, road construction, water systems, agricultural and marine applications.

## **MULTISEAL®**

A single-component elasto-bituminous adhesive product, suitable for the cold bonding of bituminous membranes, roofing tiles, cellular glass and polyurethane insulating supports. Excellent adhesive properties on cement, fibre cement and metal surfaces and terracotta tiles.

## **SIBAGEL®**

A slightly thixotropic gelatinous paste bituminous emulsion, consisting of a bitumen-in-water dispersion, mineral additions and special additives which make it suitable for use in construction works where waterproofing and protection are essential, such as building construction, sports facilities, marine construction and industrial plants.

## **IDROSIBA AC 8021®**

Vinyl-acrylic resin-based paint, designed for hot and cold application waterproofing works. Especially suitable for protection for UV rays.

*Available in various colours: White · Light grey · Dark brown · Red · Chrome green*
